

Believe in innovation

KCC
Steel Reels Pvt. Ltd.

About us

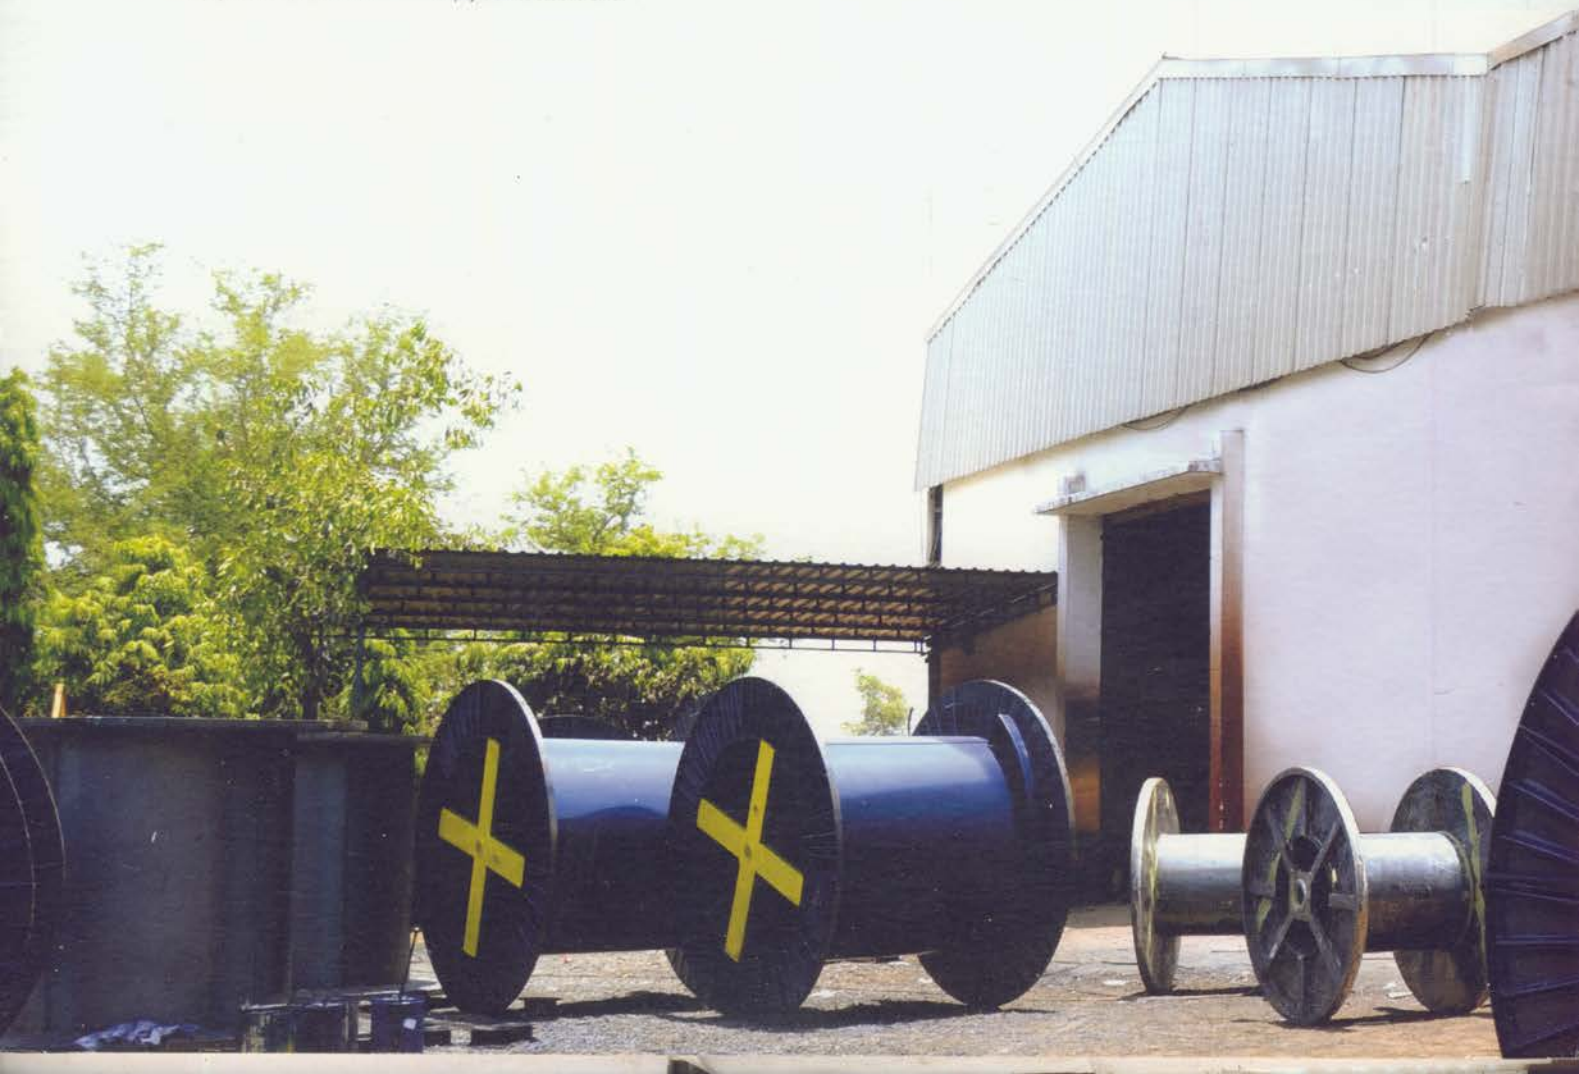

KCC Steel Reels was established in the year 1984 as a fabrication workshop, which had now taken shape of a well-established manufacturing unit by continual improvement and developments. The main product we developed is a high-speed Steel Reels, Wooden Reels, Hybrid Reels for wire and cable industries.

We are one of the largest manufacturer of reels. Our products are renowned world wide. We have a list of more than 70 valued users from wire & cable industry, which includes Sterlite Technologies Limited, JSK Industries Pvt. Ltd., Gupta Power Infrastructure Limited, Hindusthan Vidhyut Products Ltd., Torrent Cables Limited., Apar Industries Limited, Finolex Cables Limited and many more.

We at KCC steel Reels Pvt. Ltd., provide complete packaging solution to cable industries with manufacturing unit in (Dabhan) Gujarat.

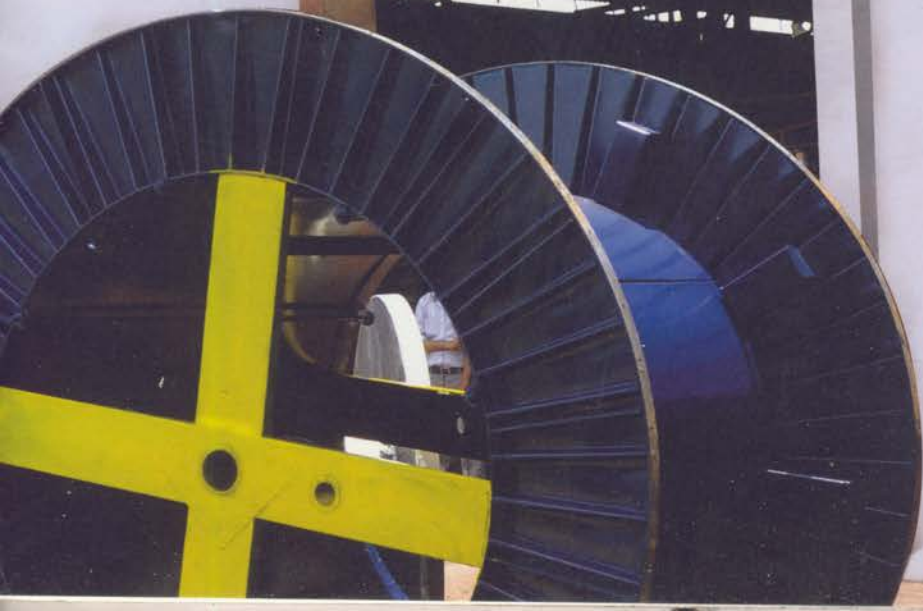

Our Management team is headed by our group chairman Mr. Kailash Sharma. Today Company has grown from single Unit of wooden Cable Drum Manufacturing to multiple manufacturing facilities for manufacturing of wooden / Hybrid / Steel Drums, Packaging material and Related Machineries.

Our Brand Under KCC Group

STEELREELS

Team

KCC Steel Reels Pvt. Ltd. dedicated team will offer you utmost professionalism, creativity, and non-trivial approach. Each dedicated team has an experienced team leader to avoid possible unpredictable issues of the development process and to ensure the most efficient workflow.

Key benefits of our dedicated team:

- Flexible engagement contract
- Complete devotion to your business objectives
- Skilled staff to work exclusively for you
- Possibility to select team members, motivate and manage them
- Experienced dedicated team leader to ensure the most efficient workflow
- Direct contact
- Transparent workflow

Strength

People : Be a great place to work where people are inspired to be the best they can be.

Infrastructure : Be a great place to work where people are inspired to be the best they can be.

Portfolio : Bring to the world a portfolio of quality beverage brands that anticipate and satisfy people's desires and needs.

Partners : Nurture a winning network of customers and suppliers, together we create mutual, enduring value.

Planet : Be a responsible citizen that makes a difference by helping build and support sustainable communities.

Productivity : Be a highly effective, lean and fast-moving organization.

Steel Reels

Steel Cable Drums are ideal as a substitute for the conventional wooden drums which are used by telecommunication and power cable manufactures, in process lines and for transporting finished cables.

Our product range includes Collapsible and Rigid Cable Drums, Process Drums, Delivery Drums for Drum Twister Line. These Drums can be dynamically balanced whenever necessary.

In terms of sizes, we produce steel Cable Drums from 600mm diameter up to 4000 mm diameter. In case, our customers require good quantities of drums in sizes below and above the range, we can also take up production of these drums.

Features

- Light Weight - Easy Assembling/Disassembling - Reduced Storage Space, Less Transport Cost - Interchangeable Components
- More Protection to Cables - Re-Usable & Economical - Reliable Alternative - Environment Friendly

Hybrid Reels

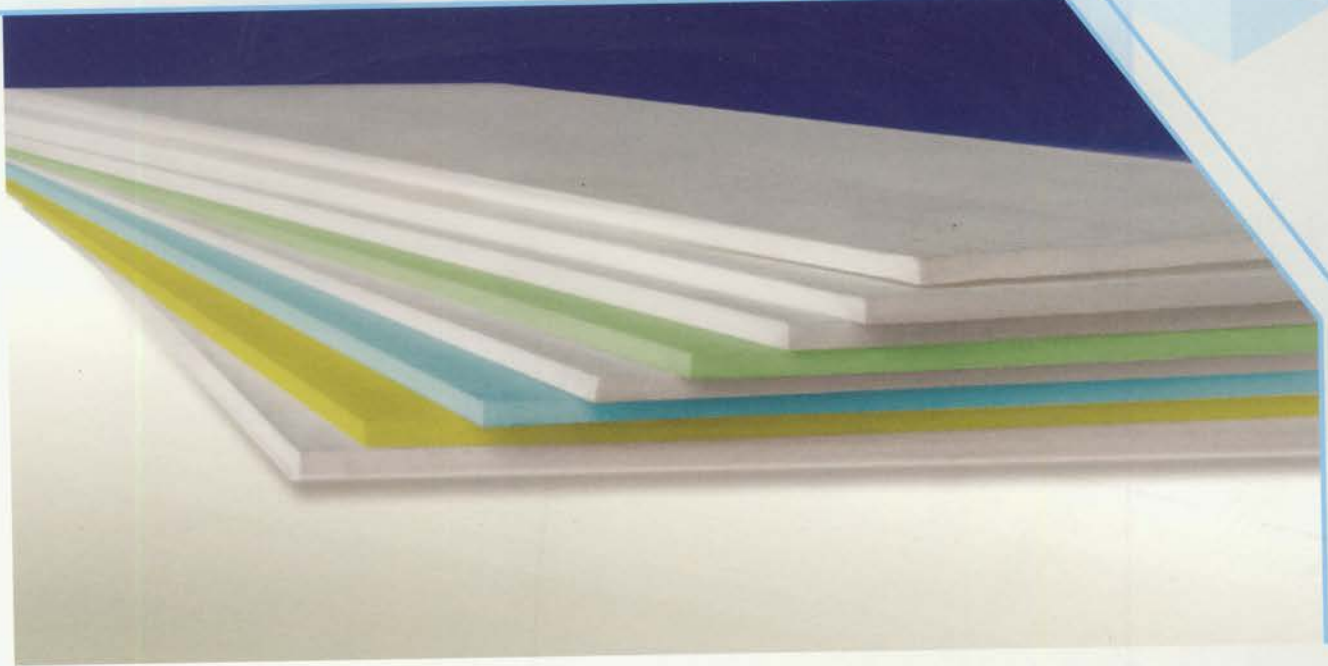

Hybrid Drums are manufactured using Steel Frames + HDPE Sheets or Steel Frames + Wooden Planks. We manufacture both type of Hybrid Drum. They are used by Telecommunication Power Cable & Overhead Conductors Manufacturers for transportation of Cables and Conductors. We produced Hybrid Drums ranging from 1000mm to 2200 mm in Diameter. Customized Sizes are also available upon request.

Features

- Light Weight
- Easy to Assemble
- 100 percent Recyclable
- Requires Less Space
- Provide Greater Protection to Cables
- Economical & Reliable
- Environment Friendly

Packaging Material

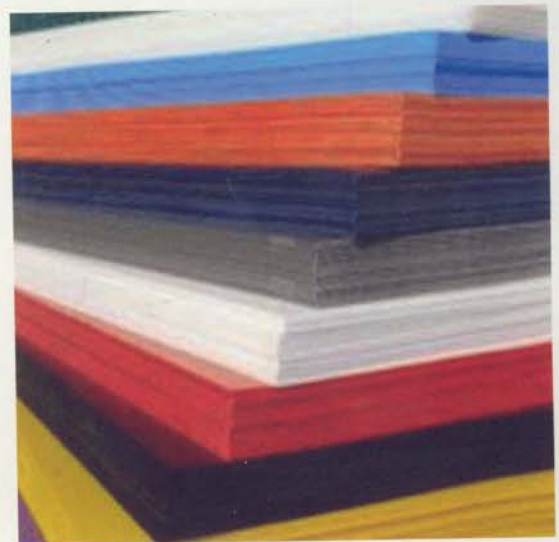

HDPE Sheets are used in Cable Drums for Packing of Cable Loaded Drums.

It is the fastest way to pack cable drums.

Features

- Strong & Durable
- 100% Recyclable & Non-Toxic
- Water Resistant
- Impervious to Moisture, Insects & Salt
- Fire Retardant
- Virtually Maintenance Free

Furnace

Our range includes Pot Furnaces, Continuous Wire Annealing Tube Furnaces, Bell Type Furnaces, Continue Roller, Pit-Type-Furnaces, Top Loading Furnaces For Hardening, Box Type Furnaces For Hardening, Salt Bath Furnaces For Carbonizing, Top Loading Furnaces For Tempering, Rotary Retort Furnaces, Boogie Furnace, Furnaces For Melting of Copper, Brass, Bronze, Gunmetal, Furnaces For Melting Gold And Silver, Aluminium And Aluminium Alloys Melting Furnaces, Aluminium-Melting-Furnaces-Crucible, Drop bottom furnace. We use high grade components such as blowers, controls and the circuit breakers to manufacture our quality range.

Features

- Precisely Engineered
- Compact Design
- Easy Installation
- Durable
- High Efficiency
- Excellent Finish

In addition to our vast range of drums, reels and spools, we also offer an extensive range of standard and customized ancillary equipment.

Ancillaries

Coil Carrying Formers

Jig built, coil carrying former are manufactured to your own specification or designs and engineered to match your precise requirements based on our extensive service to the wire industry. Stackable, used for single or multi-journey as well as in house applications we can manufacture to carry loads of up to 5000kg capacity.

Suitable for use across a wide range of products including:

- Mild and carbon steel
- High carbon steel wire (bedding and seating wire)
- Cold heading steel wire
- Non ferrous wires
- Stainless steel wire

Specification

- Fabricated from high quality certified Tube, hollow section, or solid bar
- Welded by MIG process to BS 5135
- Painted in company livery

Advantages

As all formers are manufactured to order you can choose exactly what you need, including

- Precision machined components when required
- Single or Multi colors
- Square or round top boss
- Four or six legs
- Stainless steel
- Welded identification symbols

Strator Packs

Kailash Group stator packs, for in house applications or multi-journey transportation, are jig built and manufactured to suit your exact requirement, to carry product up to 3000kg capacity.

Specification

- Fabricated from high quality certified Tube, hollow section, or solid bar
- Welded by MIG process to BS 5135
- Painted in company livery

Advantages

As all formers are manufactured to order you can choose exactly what you need, including

- Support feet for fork lifting
- Welded identification symbols

Lifting Beam

Kailash Group Lifting Beams are available in a wide range of sizes to suit your exact specifications

- Overhead handling of loaded drums and coil makers
- Individually designed lifting beams to suit customer's existing drums or new drum requirements
- Lifting beams designed and supplied up to 300 tonnes for 9.2 metres drums
- Each unit independently tested and certificated

Lifting Beam

Jig built, coil cradles are manufactured to your own specification or designs and engineered to match your precise requirements based on our extensive service to industry.

Specification

- Fabricated from certified materials
- Welded by MIG process
- Painted in company livery, single or multi colors
